CUMULATIVE SUBJECT INDEX

VOLUME 15

**indicates original article*

ABDOMEN
—advanced abdominal pregnancy, 95
—new retractor for cesarean section, 45
—serum lactic dehydrogenase in diagnosis of acute surgical, 210
AGANGLIONOSIS
—diagnosis and treatment of aganglionosis of myenteric plexus, 79
ANESTHESIA
—anesthetic properties of steroid 21-hydroxypregnanedione sodium succinate, 181
—comparison of anileridine, morphine, and meperidine, 41
—medicolegal aspects of intubation granuloma, 181
obstetric:
—analgesia and anesthesia in general practice, 96
—analgesic-potentiating effect of chlorpromazine during labor, 96
—improved transvaginal pudendal block, 98
—saddle block in breech delivery, 98
—spinal anesthetic agents for vaginal delivery, comparison of Xylocaine and Nupercaine, 220
ANEURYSMS
—Orlon and nylon prostheses for abdominal aneurysms and five year observation on experimental aortic homografts, 16
—renal artery, report of 12 cases, 17
—splenic artery, rupture of, in pregnancy, 94
—traumatic thoracic, treatment by resection and grafting with use of extracorporeal by-pass, 135
ANTICOAGULANTS
—anticoagulant treatment of phlebothrombosis during pregnancy, 39
—critical evaluation of, for pulmonary embolism, 182
ARTERIOSCLEROSIS
—prognosis in arteriosclerotic peripheral vascular disease, 208
—renal hypertension and, indications for aortography in hypertensive patients and results of surgical treatment of obstructive lesions of renal artery, 115
ARTHROPLASTY
—principles of hip-socket, 19
ASPIRATION BIOPSY
—in diagnosis of thyroid tumors, 121

BILE DUCTS
—evaluation of risk in medical treatment of acute cholecystitis, 83
—postcholecystectomy syndrome with special reference to the cystic duct remnant, 203
—simultaneous radiography of stomach and, in gastric resection, 131
—sphincter of Oddi in cholelithiasis, 201
common:
—experimental production of gallstones by incomplete stricture of terminal, 82
—stones, 131
—total sphincteroplasty without drainage of, 130
intrahepatic:
—cholangiojejunostomy (Longmire procedure) in carcinoma of, 9
BLADDER
—growths, radioactive gold grains in treatment of, 12
—ileal bladder substitution, analysis of 78 cases, 12
—total mucosal denudation of canine, 133
BLEEDING TIME
—dextran and prolonged bleeding time, results of infusion given to 163 normal human subjects, 184
BLOOD
—ABO incompatibility as cause of hemolytic disease of newborn, 50
—clinical value of serologic examinations related to blood groups in pregnant patients, 214
—delayed ligation of umbilical cord, influence on blood volume of newborn, 108
—fibrinolytic fibrinogenopenia, occurrence in a case of abruptio placentae, 216
—hyperchloremic acidosis in chronic pyelonephritis, 233
—method of increasing the partial pressure of oxygen in blood of newborn infant, 225
—thyroxine binding by serum protein in pregnancy and in newborn, 165
hypofibrinogenemia:
—and placenta, 167
—possible role of placenta in, 107
—two possible cases of acquired, in newborn, 216
transfusions:
—in treatment of postgastrectomy syndrome, 129
—in upper gastrointestinal hemorrhage, 8
BLOOD PRESSURE
—arteriosclerosis and renal hypertension, indications for aortography in hypertensive patients and results of surgical treatment of obstructive lesions of renal artery, 115
—pressor phenomenon associated with postpartum period, 105
—role of salt in fall of, accompanying reduction in obesity, 237
BLOOD VESSELS
—abdominal visceral periarteritis nodosa, 139
—arterial grafting for major arterial occlusive disease, 136

—arterial grafts, 13
—arteriosclerosis and renal hypertension, indications for aortography in hypertensive patients and results of surgical treatment of obstructive lesions of renal artery, 115
—carotid ligature in neck in treatment of arteriovenous anomalies of cerebrum, 119
—injection treatment of varicose veins, 208
—interatrial venous transposition, one-stage intracardiac operation for conversion of complete transposition of aorta and pulmonary artery to corrected transposition, 71
—long-term study of externally supported venous and arterial heterografts, 136
—normal vascular anatomy of human femoral head during growth, 18
—obstruction and occlusion of, 15
—Orlon and nylon prostheses for abdominal aneurysms and five year observation on experimental aortic homografts, 16
—peripheral venous thrombosis and pulmonary embolism, critical evaluation of anticoagulant therapy for, 182
—postoperative venographic control following ligation of inferior vena cava, 135
—prognosis in arteriosclerotic peripheral vascular disease, 208
—splenic approach to portal circulation, intrasplenic and intrahepatic tissue pressure measurements in acute and convalescent hepatitis, 84
—superior vena caval replacement, successful use of a pedicle tube created from right atrium and appendage, 207
—thrombophlebitis of superficial abdominal veins, unusual complication of inferior vena cava ligation, 209

BOOK REVIEWS
—Abdominal Total Hysterectomy, 141
—Bone Tumors, 141
—Chemosurgery in Cancer, Gangrene and Infections, 89

—Treatment of Burns, 90
—Urological Surgery, 27
—Verbrennungen, 212

BRAIN
—carotid ligature in neck in treatment of arteriovenous anomalies of cerebrum, 119
—lyophilized human dura mater as a dural substitute, 186
tumors:
—hypothermia in cerebral tumors, 187

BREAST
—changes in, in immediate puerperium, therapy and clinical evaluation, 105
surgery:
—postmastectomy dressing with suction, atmospheric pressure, and breast binder, 126

BREECH PRESENTATION
—first stage of, 43
—saddle block anesthesia in, 98
—second stage of, 45

CALCULI
—influence of sex hormones on formation of experimental vesical, in male rats, 85
—prophylaxis of urinary tract, urinary glucuronides, 86

CANCER
—exfoliative cytology in detection of pelvic malignancy, 231
—pathologic aspects in the control of spread of colonic carcinoma, 198
—pre-existing roentgen-ray dermatitis in patients with skin cancer, 88
—sinus histiocytosis of lymph nodes in, 174
breast:
—medical inhibition of endogenous estrogenic activity for palliation of advanced, 5
—roentgenography of unsuspected, 125
—severe exacerbation of, after oophorectomy and adrenalectomy, 235

—chronic ulcerative colitis of rectum and, 199
—pathologic aspects in control of spread of, 185, 198
colon:
—and ulcerative colitis, 198
—villous adenomas of the large intestine, clinicopathologic evaluation of 50 cases of, with emphasis on treatment, 200
endometrium:
—endocrine abnormalities accompanying human, 53
—primary surgical treatment of, 230
esophagus:
—results of surgical treatment of, 122
stomach:
—cytology in diagnosis of, 75
—ulcer cancer of, 77
tongue:
—survey of, over 15 year period, 120
—treatment of, 120
uterus:
—cervical carcinoma complicating procidentia, 111
—cervical cell studies, a method of increasing production, 231
—of cervix, preventable disease, 111
—endocrine abnormalities accompanying human endometrial cancer, 53
—five year cure rates of clinically occult and suspected, 229
—nature of cells originating in so-called "precancerous" lesions of cervix, 232
—occult carcinoma and premenopausal abnormal uterine bleeding, 13
—Papanicolaou smear in private practice, 112
—primary surgical treatment of endometrial carcinoma, 230
—regression, recurrence, and regression of epithelial atypism of cervix, 115
—tetrazolium staining in cytology of uterine cervix, cytochemical studies on supravital preparations of benign and malignant origin, 232
CARDIAC SPHINCTER
—closing mechanism of cardia, 7
CARDIOPERICARDIOPEXY
—experimental evaluation, 189
CARDIOSPASM
—surgical treatment of (achalasia of the esophagus), aspects of esophagomyotomy, 123
CESAREAN SECTION
—factors influencing perinatal mortality in, 222
—fetal mortality in, 47
—new abdominal retractor for, 45
—total hysterectomy for sterilization following, 223
CHEMOPALLIDECTOMY
—follow-up studies in, for paralysis agitans, 119
CHILDREN—*See also Infants; Newborn.*
—diagnosis and treatment of aganglionosis of myenteric plexus, 79
—esophageal reconstruction in, using intrathoracic colon, 2
—polyps of colon in, 80
CHOLANGIOGRAPHY
—postcholecystectomy syndrome and intravenous, 202
CHOLANGIOJEJUNOSTOMY
—Longmire procedure in carcinoma of intrahepatic bile ducts, 9
CHOLECYSTECTOMY
postcholecystectomy syndrome:
—and intravenous cholangiography, 202
—with special reference to the cystic duct remnant, 203
CHOLECYSTITIS
—acute, evaluation of risk in medical treatment of, 83
CHOLELITHIASIS
—common-bile-duct stones, 131
—experimental production of gallstones by incomplete stricture of terminal common bile duct, 82
—sphincter of Oddi in, 201
CHORIOANGIOMAS
—chorioangiomatosis of placenta, 40
CHYLOTHORAX
—traumatic, 73
CIRCUMCISION
—immediate, of newborn, 49
COLON
—massive hemorrhage from diverticular disease of, 79
—polyps of, in children, 80
surgery:
—erythromycin and erythromycin-neomycin for intestinal antisepsis, 68
—surgical management of acute volvulus of sigmoid colon, 81
COLPOTOMY
—posterior, method for diagnosis and definitive treatment, 171
CONDYLOMA ACUMINATUM
—treatment of, 92
CONGENITAL DEFECTS
—frequency of, in infants whose mothers had rubella during pregnancy, 102
—maternal health and, 224
CONSTIPATION
—management of, in pregnancy, 30*
—management of postpartum, with dioctyl sodium succinate, 103
CORONARY INSUFFICIENCY
—internal-mammary-artery ligation for, 125
4-C^{14}-CORTISOL
—physiological disposition of, during late pregnancy, 38
CORTISONE
—medical inhibition of endogenous estrogenic activity for palliation of advanced mammary cancer, 5
CULDEPLASTY
—posterior, surgical correction of enterocele during vaginal hysterectomy, 172
CULDOCENTESIS
—in diagnosis and treatment, 87
CYTOLOGY
—in diagnosis of gastric cancer, 75
—exfoliative, in detection of pelvic malignancy, 231
—nature of cells originating in so-called

"precancerous" lesions of uterine cervix, 232
—regression, recurrence, and regression of epithelial atypism of cervix, 115
—tetrazolium staining in, of uterine cervix, cytochemical studies on supravital preparations of benign and malignant origin, 232
—value of, in accidents of early pregnancy, 54

DEFECATION
—bowel regulation for patients with spinal cord injury, 187
DEXTRAN
—and prolonged bleeding time, results of infusion given to 163 normal human subjects, 184
DIET
—effect of, on nitrogen metabolism in surgical patient, 68
—infant, in India, 50
—pregnancy craving and pica, 38
—problem after total gastrectomy, 7
DIVERTICULOSIS
—massive hemorrhage from, of colon, 79
DUODENUM
—dyskinesia after gastric resection (Pean), 127

EDEMA
—limb, of pelvic etiology in women, evaluation by means of pelvic venography and lympatic function test, 57
—primary lymphoedema, clinical and lymphangiographic studies, 87
ENDOCRINE GLANDS
—abnormalities accompanying human endometrial cancer, 53
—differential diagnosis and treatment of hirsutism in women, 143*
—tumors of adrenal glands, 118
ENDOMETRIUM
—inguinal endometriosis, 234
—newer progestins in endometriosis, 170
—successful pregnancy after endometrial tuberculosis, 106
ENTERITIS
—nonsurgical management of regional, 129
ENTEROCELE
—posterior culdeplasty as surgical correction of, during vaginal hysterectomy, 172
ENTEROENTEROSTOMY
—the place of enteroenterostomy in treatment of postgastrectomy syndrome, 196
EPIGASTRIUM
—improvement of diagnosis of tumors of, by transparietal splenoportography, 117
EPITHELIUM
—regression, recurrence, and regression of epithelial atypism of cervix, 115
ERYTHROBLASTOSIS FETALIS
—ABO incompatibility as cause of hemolytic disease of newborn, 50

ESOPHAGUS
—clinical test for esophagitis, 191
—closing mechanism of cardia, 7
—esophageal hiatus hernia in pregnancy, 39
surgery:
—esophageal reconstruction in children using intrathoracic colon, 2
—subtotal esophagectomy and high intrathoracic esophagogastrostomy for lye stricture of, 124
—transplantation of partially resected middle, with a jejunal graft, 190
—treatment of cardiospasm (achalasia of the esophagus), considerations of aspects of esophagomyotomy, 123
—use of gastric tube to replace, 70
—valve mechanism to prevent gastroesophageal reflux and esophagitis, 190
ESTROGENS
—excretion following operative and irradiation castration in mammary cancer, 192
—activity and uterine contractility, 55
—long-acting, in amenorrhea and menopause, 110
—medical inhibition of endogenous estrogenic activity for palliation of advanced mammary cancer, 5

FETUS
—diagnosis of sex during pregnancy, 35
—dynamics of protein changes in amniotic fluid of normal and abnormal rat embryos, 107
—fetal heart ratemeter, 35
—oligohydramnios in relaation to roentgen signs of fetal death, 102
—pediatric aspects of placental dysfunction syndrome in postmaturity, 93
FIBRINOGEN
—fibrinolytic fibrinogenopenia, occurrence in a case of abruptio placentae, 216
—possible role of placenta in hypofibrinogenemia, 107
—2 possible cases of acquired hypofibrinogenemia in newborn, 216
FRACTURE
—Kuntscher method of intramedullary fixation, 209
—loosening and, of Judet's hip prosthesis, 137
—pubic chip fracture, report of 2 cases occurring during pregnancy and labor, 106
—stress, of fibula, review of 50 cases in athletes, 20
—three-side plate fixation for, of femoral and tibial shafts, 210
—of tibial condyle, clinical and experimental study, 138

GALLBLADDER
—polypoid mucosal lesions of, 202
postcholecystectomy syndrome:
—and intravenous cholangiography, 202
—with special reference to the cystic duct remnant, 203

GANGLIA
—functional significance of first thoracic, in sympathectomy of upper extremity, 4
GASTRECTOMY
—blood transfusions in treatment of postgastrectomy syndrome, 129
—duodenal dyskinesia after gastric resection (Pean), 127
—malabsorption syndromes in postgastrectomy patient, 128
—nutritional problems after total, 7
—pathogenesis of dumping syndromes, role of distension of efferent loop, 6
—the place of enteroenterostomy in treatment of postgastrectomy syndrome, 196
subtotal:
—and hemigastrectomy with vagotomy for duodenal ulcer, 78
—motility in gastric remnant following, 77
—uropepsin excretion in partially gastrectomized peptic ulcer patients with postcibal symptoms, 194
GASTROINTESTINAL TRACT
—abdominal visceral periarteritis nodosa, 139
—antihypertensive drugs as a cause of acute abdomen, 211
—bowel regulation for patients with spinal cord injury, 187
—closing mechanism of cardia, 7
—peritoneoscopy, a revaluation, 193
—serum lactic dehydrogenase in diagnosis of acute surgical abdomen, 210
—transfusion in upper gastrointestinal hemorrhage, 8
GLUCOSE TOLERANCE
—plasma 17-hydroxycorticosteroid levels in patients with abnormal, during pregnancy, 215
GLUCURONIDES
—prophylaxis of urinary tract calculi, urinary glucuronides, 86
GOLD
—radioactive, in treatment of bladder growths, 12
GONADS
—gonadal dysgenesis in newborn infant, 224
GONORRHEA
—gonorrheal pneumonia and sepsis complicating puerperium, 104
GYNECOLOGY
—culdocentesis in diagnosis and treatment, 87
—differential diagnosis and treatment of hirsutism in women, 143*
—eunuchoidism with low urinary follicle-stimulating hormone in female, 173
—indications for hysterectomy in postpartum hemorrhage, 113
—local hydrocortisone therapy of vaginal and vulval pruritus, 169
—posterior colpotomy, method for diagnosis and definitive treatment, 171
—posterior culdeplasty, surgical correction of enterocele during vaginal hysterectomy, 172
—self-retaining cannula set for hysterosalpingography, 116
—treatment of condyloma acuminatum, 92
—uroflometric observations, in, 173

HANDS
—syndrome of median nerve compression in carpal tunnel, 4 cases treated surgically, 20
HEART
—acardius in newborn, 48
—cardiopericardiopexy, experimental evaluation of, 189
—cardiorespiratory arrest in newborn treated by cardiac massage, 103
—chronic constrictive pericarditis, roentgenologic findings in 35 surgically proved cases, 71
—fetal heart ratemeter, 35
surgery:
—clinical experiences with induced cardiac arrest during intracardiac surgical procedures, 123
—extirpated canine lung as biologic oxygenator, 14
—high atmospheric pressure as aid to, 3
—highlights in history of, 59*
—internal-mammary-artery ligation for coronary insufficiency, 125
—open repair of atrial septal defects, 73
wounds:
—studies in healing of large right ventriculotomies, 72
HEMANGIOPERICYTOMA
—of uterus, 54
HEMORRHAGE
—conservative management of traumatic hemothorax, 21
—indications for hysterectomy in postpartum, 113
—massive, from diverticular disease of colon, 79
—possible role of placenta in hypofibrinogenemia, 107
—transfusion in upper gastrointestinal, 8
HEPATITIS
—splenic approach to portal circulation, intrasplenic and intrahepatic tissue pressure measurements in acute and convalescent, 84
HERNIA
—esophageal hiatus, in pregnancy, 39
—femoral, 126
—properitoneal, 194
—traumatic diaphragmatic, 74
HIDRADENOMA
—of vulva, 229
HIP
—loosening and fracture of Judet's hip prosthesis, 137
—normal vascular anatomy of human femoral head during growth, 18
—principles of hip-socket arthroplasty, 19
HIRSUTISM
—differential diagnosis and treatment of hirsutism in women, 143*
HORMONES
—influence of sex, on formation of experi-

mental vesical calculi in male rats, 85
—long-acting estrogens in amenorrhea and menopause, 110
—methallenestril (Vallestril) in control of menopausal symptoms, 32
—newer progestins in treatment of endometriosis, 170
—estrogen activity and uterine contractility, 55
HYALINE MEMBRANES
—significance of pulmonary, in newborn, 223
HYDATIDIFORM MOLE
—with fetus, 219
HYDROCORTISONE
—local, in therapy of vaginal and vulval pruritus, 169
HYPERCHLOREMIC ACIDOSIS
—in chronic pyelonephritis, 233
HYPERTENSION
—antihypertensive drugs as a cause of acute abdomen, 211
—arteriosclerosis and renal, indications for aortography in hypertensive patients and results of surgical treatment of obstructive lesions of renal artery, 115
HYPERTHYROIDISM
—10 year results of I^{131} therapy of, 69
HYPOFIBRINOGENEMIA
—possible role of placenta in, 107
HYSTERECTOMY
—indications for, in postpartum hemorrhage, 113
—posterior culdeplasty in surgical correction of enterocele during vaginal, 172
—total, for sterilization following cesarean section, 223

INFANTS—*See also Children; Newborn.*
—feeding of, in India, 50
—hyaline membranes in lungs of premature, 51
—temperature of premature, 51
INFECTIONS
hospital:
—oxygen therapy as unsuspected source of, 221
INGUINAL CANAL
—inguinal endometriosis, 234
INSTRUMENTS
—abdominal retractor for cesarean section, 45
—fetal heart ratemeter, 35
—for ligation of umbilical cord, 108
—modified bubble-type pump oxygenator, 124
—self-retaining cannula set for hysterosalpinography, 116
—uroflometric observations in gynecologic patients, 173
INTESTINES
—carcinoma and ulcerative colitis, 198
—chronic ulcerative colitis and carcinoma of colon and rectum, 199
—diagnosis and treatment of aganglionosis of myenteric plexus, 79
—erythromycin and erythromycin-neomycin for intestinal antisepsis, 68
—massive hemorrhage from diverticular disease of colon, 79
—nonsurgical management of regional enteritis, 129
—operative decompression of intestinal obstruction by long-tube jejunostomy, 201
—operative intestinal arteriography, 197
—primary (idiopathic) enteric intussusception in adult, 80
—surgical management of acute volvulus of sigmoid colon, 81
—villous adenomas of the large intestine, Clinicopathologic evaluation of 50 cases of, with emphasis on treatment, 200
INTUSSUSCEPTION
—primary (idiopathic) enteric intussusception in adult, 80

JEJUNOSTOMY
—operative decompression of intestinal obstruction by long-tube, 201

KIDNEYS
—hyperchloremic acidosis in chronic pyelonephritis, 233
KNEE
—total replacement of knee joint by prosthesis, 21

LABOR
—analgesic-potentiating effect of chlorpromazine during, 96
—in elderly primapara, 100
—first stage of, in breech presentation, 43
—Pitocin overdosage in first stage of, 221
—postmature pregnancy, clinical obstetric aspects, 100
—pubic chip-fracture occurring during pregnancy and, 106
—second stage of, in breech delivery, 45
anesthesia:
—guide for improved transvaginal pudendal block, 98
—obstetric analgesia and anesthesia in general practice, 96
—saddle block, in breech delivery, 98
—spinal, for vaginal delivery, comparison of Xylocaine and Nupercaine, 220
complications:
—pregnancy in paraplegia, with urologic complications, 101
—spontaneous rupture during, of a presacral benign cystic teratoma, 47
—submucous fibroids complicating pregnancy, delivery and, 101
—umbilical cord prolapse, analysis of 97 cases, 99
induction:
—dangers attending elective, 222
—intravenous pitocin in late abortion and immature delivery, 99
placenta:
—premature separation of normally implanted, 95

LACTIC DEHYDROGENASE
—serum, in diagnosis of acute surgical abdomen, 210
LIP
—suprahyoid neck dissection for epidermoid carcinoma of lower, 188
LIVER
—long-term survival following right hepatic lobectomy, 83
—splenic approach to portal circulation, intrasplenic and intrahepatic tissue pressure measurements in acute and convalescent hepatitis, 84
LOBECTOMY
—total right hepatic, long-term survival following, 83
LOBOTOMY
—prefrontal, and severe pre-eclampsia, 166
LUNGS
—critical evaluation of anticoagulant therapy for pulmonary embolism, 182
—extirpated canine, as biologic oxygenator, 14
—hyaline membranes in, of premature infants, 51
—radioactive colloidal chromic phosphate to control pleural effusion and ascites, 233
—significance of pulmonary hyaline membranes in newborn infants, 223
LYMPHATIC SYSTEM
—limb edema of pelvic etiology in women, evaluation by means of pelvic venography and lymphatic function test, 57
—primary lymphoedema, clinical and lymphangiographic studies, 87
—sinus histiocytosis of lymph nodes in cancer, 174

MALLET FINGER
—intramedullary wire fixation of, 17
MAMMARY ARTERY
—ligation of internal, for coronary insufficiency, 125
MARRIAGE
—education for parenthood and, 56
MASTECTOMY
—postmastectomy dressing with suction, atmospheric pressure, and breast binder, 126
MENOPAUSE
—long-acting estrogens in amenorrhea and, 110
—use of methallenestril (Vallestril) in control of symptoms of, 52
MENSTRUATION
—long-acting estrogens in amenorrhea and menopause, 110
—myth of the missed, 227
—phases of, and interpretation in terms of pregnancy cycle, 109
METATARSAL
—shortening of shaft of, in treatment of plantar keratosis, 138
MORTALITY
—from cancer of colon, 198
—factors influencing perinatal mortality in cesarean section, 222
—fetal, in cesarean section, 47
MOUTH
—gingival tumors of pregnancy, 36
—postoperative parotitis, 183
MULTIPLE BIRTHS
—acardius, 48
—bilateral tubal pregnancy, 166
—interstitial twin pregnancy with cornual rupture, 95

NEOMYCIN
—respiratory arrest following administration of intraperitoneal, 69
NEUROSURGERY
—carotid ligature in neck in treatment of arteriovenous anomalies of cerebrum, 119
—evaluation of Hypaque sodium (WIN 8308-3) for cerebral angiography, 185
—follow-up studies in chemopallidectomy for paralysis agitans, 119
—lyophilized human dura mater as a dural substitute, 186
NEWBORN
—cardiorespiratory arrest in, treated by cardiac massage, 103
—diagnosis and treatment of aganglionosis of myenteric plexus, 79
—immediate circumcision of, 49
—safe transportation of, for emergency surgery, 86
—temperature of premature, infants, 51
blood:
—ABO incompatibility as cause of hemolytic disease of, 50
—delayed ligation of umbilical cord, influence on blood volume of, 108
—method of increasing the partial pressure of oxygen in, 225
—thyroxine binding by serum protein in pregnancy and, 165
—2 possible cases of acquired hypofibrinogenemia in, 216
congenital defects:
—acardius, 48
—frequency of, in infants whose mothers had rubella during pregnancy, 102
—gonadal dysgenesis in, 224
—maternal health and, 224
mortality:
—factors influencing perinatal, in cesarean section, 222
—fetal, in cesarean section, 47
respiratory system:
—hyaline membranes in lungs of premature infants, 51
—significance of pulmonary hyaline membranes in, 223
NITROGEN METABOLISM
—effect of nutrition on, in surgical patient, 68

OBESITY
—role of salt in fall of blood pressure accompanying reduction of, 237
—weight control, practical office approach, 237

OLIGOHYDRAMNIOS
—in relation to roentgenographic signs of fetal death, 102
OSTEOGENESIS IMPERFECTA
—in pregnancy, 218
OSTEOPOROSIS
—reversibility of, in Cushing's disease, 238
OVIDUCT
—uterotubal insufflation to determine origin of fluctuations in pressure, 234
OVULATION
—induction of, in humans, 168
—living human ovum, 114
—simple test for determining time of, 214
OXYGEN
—method of increasing partial pressure of, in blood of newborn infant, 225
—oxygen therapy as unsuspected source of hospital infections, 221
OXYGENATOR
—description of modified bubble-type pump, 124
—extirpated canine lung as biologic, 14
OXYTOCIN
—intravenous Pitocin in late abortion and immature delivery, 99

PANCREAS
—clinical and morphologic study of 42 cases of fatal acute pancreatitis, 10
—effect of chronic pancreatitis on pressure tolerance in the human pancreatic duct, 204
—pancreatic lithiasis treated by distal pancreatectomy and extirpation of stones in right Wirsung duct with manometric scopic and graphic X-ray control, 132
—pancreatitis, study of, 205
—safe, effective technique for diagnostic paracentesis for acute hemorrhagic pancreatitis, 205
PAPER CHROMATOGRAPHY
—method for measurement of pregnanediol in urine, 228
PARALYSIS AGITANS
—follow-up studies in chemopallidectomy for, 119
PARAPLEGIA
—pregnancy in, with urologic complications, 101
PARENTHOOD
—education for marriage and, 56
—preparing parents for, 215
PAROTITIS
—postoperative, a reappearing disease, 183
PERIARTERITIS NODOSA
—abdominal visceral, 139
PERIPHERAL VASCULAR DISEASE
—prognosis in arteriosclerotic, 208
PERIPHERAL VENOUS THROMBOSIS
—critical evaluation of anticoagulant therapy for, 182
PERITONEOSCOPIC EXAMINATIONS
—revaluation of, 193
PHLEBOTHROMBOSIS
—anticoagulant treatment of, during pregnancy, 39

PITUITARY GLAND
—hyperthyroidism in a patient with postpartum necrosis of the pituitary, 217
PLACENTA
—chorioangiomatosis of, 40
—fibrinolytic fibrinogenopenia, occurrence in a case of abruptio placentae, 216
—hypofibrinogenemia and, 107, 167
—pediatric aspects of placental dysfunction syndrome in postmaturity, 93
—placenta accreta, review of literature and report of 4 cases, 41
—premature separation of normally implanted, 95
PLANTAR KERATOSIS
—shortening of metatarsal shaft in treatment of, 138
POLYPS
—of colon in children, 80
—polypoid mucosal lesions of gallbladder, 202
PREGNANCY
—clinical value of serologic examinations related to blood groups in, 214
—craving and pica, 38
—detection of glycosuria in, comparative study of glucose, oxidase, and copper reduction technique, 94
—diagnosis of fetal sex during, 35
—the elderly primipara and, 100
—management of constipation in, 30*
—meprobamate in, 37
—phases of the menstrual cycle and interpretation in terms of pregnancy cycle, 109
—physiological disposition of 4-C^{14}-cortisol during late, 38
—postmature, clinical obstetric aspects, 100
—preparing parents for parenthood, 215
—prochlorperazine for treatment of nausea and vomiting of early, 165
—thyroxine binding by serum protein in, and in newborn, 165
—value of cytology in accidents of early, 54
abortion:
—intravenous Pitocin in late, and immature delivery, 99
—lysol-induced criminal, 43
—therapeutic, 10-year experience, 42
complications:
—chorioangiomatosis of placenta, 40
—defects in infants whose mothers had rubella during, frequency of, 102
—esophageal hiatus hernia in, 39
—fibrinolytic fibrinogenopenia; occurrence in a case of abruptio placentae, 216
—gingival tumors of, 36
—hypofibrinogenemia and placenta, 167
—maternal health and congenital defect, 224
—osteogenesis imperfecta in, 218
—paraplegia and, with urologic complications, 101
—phlebothrombosis during, anticoagulant treatment of, 39
—placenta accreta: review of literature and report of 4 cases, 41
—placental dysfunction syndrome in postmaturity, pediatric aspects of, 93

—plasma 17-hydroxycorticosteroid levels in patients with abnormal glucose tolerance during, 215
—premature separation of normally implanted placenta, 95
—presacral benign cystic, teratoma, spontaneous rupture during labor, 47
—present-day treatment of tuberculosis in, 93
—pubic chip-fracture, report of 2 cases occurring during pregnancy and labor, 106
—rupture of splenic artery aneurysm in, 94
—spontaneous splenic rupture in early, 217
—submucous fibroids complicating pregnancy, labor, and delivery, 101
—successful, after endometrial tuberculosis, 106
—treatment of condyloma acuminatum, 92
—uterine prolapse as, case report and review of literature, 217
—vaginal septum, a cause of dystocia, 46
extrauterine:
—advanced abdominal, 95
—bilateral tubal, 166
—cervical, 219
—interstitial twin, with cornual rupture, 95
toxemia:
—antihypertension therapy in, 92
—prefrontal lobotomy and severe preeclampsia, 166

PREGNANEDIOL
—paper chromatographic method for measurement of, in urine, 228

PRESSURE
—uterotubal insufflation, study to determine the origin of fluctuations in pressure, 234

PROCIDENTIA
—cervical carcinoma complicating, 111

PRURITUS
—local hydrocortisone therapy of vaginal and vulval, 169

PUERPERIUM
—breast changes in, therapy, and clinical evaluation, 105
—gonorrheal pneumonia and sepsis complicating, 104
—hyperthyroidism in a patient with postpartum necrosis of the pituitary, 217
—indications for hysterectomy in postpartum hemorrhage, 113
—management of postpartum constipation with dioctyl sodium succinate, 103
—pressor phenomenon associated with postpartum period, 105

PYELONEPHRITIS
—hyperchloremic acidosis in chronic, 233

PYLOROPLASTY
—rationale of vagotomy and, in bleeding duodenal ulcer, 196
—vagotomy and, for acute perforated duodenal ulcer, 76

RADIOISOTOPES
—physiological disposition of 4-C^{14}-cortisol during late pregnancy, 38
—radioactive colloidal chromic phosphate, pleural effusion and ascites, 233
—radioactive gold grains in treatment of bladder growths, 12
—10 year results of I^{131} therapy of hyperthyroidism, 69

RECTUM
—chronic ulcerative colitis and carcinoma of, 199

RESPIRATORY SYSTEM
—cardiorespiratory arrest in newborn treated by cardiac massage, 103
—hyaline membranes in lungs of premature infants, 51, 223
—medico-legal aspects of intubation granuloma, 181
—radioactive colloidal chromic phosphate for pleural effusion and axcites, 233
—respiratory arrest following administration of intraperitoneal neomycin, 69
—solitary pulmonary nodule, 189
—surgical treatment of metastatic pulmonary lesions, 192

ROENTGENOLOGY
—arteriosclerosis and renal hypertension, indications for aortography in hypertensive patients and results of surgical treatment of obstructive lesions of renal artery, 115
—complications of aortography, 3
—evaluation of Hypaque sodium (WIN 8308-3) for cerebral angiography, 185
—evaluation of radiology and gastroscopy in differential diagnosis of gastric ulcer, 75
—improvement of diagnosis of tumors of epigastrium by transparietal splenoportography, 117
—ionizing radiation, 227
—oligohydramnios in relation to roentgen signs of fetal death, 102
—operative intestinal arteriography, 197
—postcholecystectomy syndrome and intravenous cholangiography, 202
—pre-existing roentgen-ray dermatitis in patients with skin cancer, 88
—roentgenography of unsuspected carcinoma of breast, 125
—self-retaining cannula set for hysterosalpingography, 116
—simultaneous radiography of bile ducts and stomach in cases of gastric resection, 131

SALT
—intake and need, 236
—role of, in fall of blood pressure accompanying reduction in obesity, 237
—serum freezing point depressions in evaluating salt and water balance in preoperative and postoperative states, 183

SPHINCTEROPLASTY
—total, without drainage of common bile duct, 130

SPINAL COLUMN
—herniated lumbar intervertebral discs, results of surgical treatment without routine use of spinal fusion, 1

SPINAL CORD
—bowel regulation for patients with injury to, 187
SPLEEN
—spontaneous rupture of, in early pregnancy, 217
—traumatic rupture of, from nonpenetrating injuries, 206
STAPHYLOCOCCIC INFECTIONS
hospital acquired:
—bacteriologic and clinical experiences and methods in control of antibiotic-resistant, 225
—ecologic and epidemiologic aspects of, 226
—types encounted in United States, 167
STERILITY
—eunuchoidism with low urinary follicle-stimulating hormone in female, 173
STERILIZATION
—total hysterectomy for, following cesarean section, 223
STOMACH—
—closing mechanism of cardia, 7
—motility in gastric remnant following subtotal gastrectomy, 77
—simultaneous radiography of bile ducts and, in gastric resection, 131
—uropepsin excretion in partially gastrectomized peptic ulcer patients with postcibal symptoms, 194
SURGERY
—clinical experiences with induced cardiac arrest during intracardiac, 123
—conservative management of traumatic hemothorax, 21
—effect of nutrition on nitrogen metabolism in surgical patient, 68
—high atmospheric pressure as aid to cardiac, 3
—highlights in history of cardiac, 59*
—long-term study of externally supported venous and arterial heterografts, 136
—posterior colpotomy for diagnosis and definitive treatment, 171
—respiratory arrest following administration of intraperitoneal neomycin, 69
—safe transportation of newborn infants for emergency, 86
—serum freezing point depressions in evaluating salt and water balance in preoperative and postoperative states, 183
—total sphincteroplasty without drainage of common bile duct, 130
—traumatic chylothorax, 73
—ureteral injuries in pelvic, 84
—urinary stress incontinence in females, round-ligament technique for retropubic suspension of urethra, 114
—vesicorectostomy, 206
SYMPATHECTOMY
—functional significance of first thoracic ganglion in sympathectomy of upper extremity, 4

TEMPERATURE
—hypothermia in treatment of cerebral tumors, 187
—of premature infants, 51
TESTES
—management of, tumors of, 134
—traumatic rupture of, 85
—vasectomy, medical and lega aspects, 133
THYROID GLAND
—carcinoma of, review of 64 cases, 121
—critical evaluation of aspiration biopsy in diagnosis of tumors of, 121
—hyperthyroidism in a patient with postpartum necrosis of the pituitary, 217
—10 year results of I^{131} therapy of hyperthyroidism, 69
—thyroxine binding by serum protein in pregnancy and in newborn, 165
TUBERCULOSIS
—endometrial, successful pregnancy after, 106
—present-day treatment, in pregnancy, 93
TUMORS
—of adrenal glands, 118
—case of feminizing adrenal, in a girl, 236
—concurrent and interrelated stromal endometriosis (stromatosis, stromal sarcoma) and uterine adenomyosis, 230
—hemangiopericytoma of uterus, 54
—improvement of diagnosis of, of epigastrium by transparietal splenoportography, 117
—intubation granuloma, medicolegal aspects of, 181
—nature of cells originating in so-called "percancerous" lesions of uterine cervix, 232
—solitary pulmonary nodule, 189
—spontaneous rupture during labor of a presacral benign cystic teratoma, 47
—submucous fibroids complicating pregnancy, labor, and delivery, 101
—surgical treatment of metastatic pulmonary lesions, 192
—tetrazolium staining in cytology of uterine cervix, cytochemical studies on supravital preparations of benign and malignant origin, 232

ULCERS
duodenal:
—antral exclusion with vagotomy for, acid secretory studies on 50 patients, 5
—rationale of vagotomy and pyloroplasty in management of bleeding, 196
—subtotal gastrectomy and hemigastrectomy with vagotomy for, 78
—vagotomy and pyloroplasty for acute perforated, 76
gastric:
—evaluation of radiology and gastroscopy in differential diagnosis of, 75
—primary gastric resection in treatment of perforated peptic ulcer, 195
—ulcer cancer of stomach, 77
—uropepsin excretion in partially gastrectomized peptic ulcer patients with postcibal symptoms, 194
UMBILICAL CORD
—delayed ligation of, influence on blood volume of newborn, 108

—new instrument for ligation of, 108
—prolapse, analysis of 97 cases, 99
URINARY SYSTEM
—ileal bladder substitution, analysis of 78 cases, 12
—influence of six hormones on formation of experimental vesical calculi in male rats, 85
—pregnancy in paraplegia with urologic complications, 101
—prophylaxis of urinary tract calculi, urinary glucuronides, 86
—radioactive gold grains in treatment of bladder growths, 12
—total mucosal denudation of canine bladder, 133
—total replacement of ureter with small intestine, 134
—ureteral injuries in pelvic surgery, 84
—urinary stress incontinence in females, round-ligament technique for retropubic suspension of erethra, 114
URINE
—detection of glycosuria in pregnancy, comparative study of glucose, oxidase, and copper reduction technique, 94
—paper chromatographic method for measurement of pregnanediol in, 228
—uroflometric observations in gynecologic patients, 173

UTERUS—*See also Endometrium.*
interstitial twin pregnancy with cornual rupture, 95
—prolapse as a complication of pregnancy, 217
—self-retaining cannula set for hysterosalpingography, 116
—uterine contractility, mechanism of mechanical irritation in normal, and test for estrogen activity, 55

VAGINA
—local hydrocortisone therapy of vaginal and vulvalpruritus, 169
—posterior culdeplasty, surgical correction of enterocele during vaginal hysterectomy, 172
—vaginal fascia, 110
—vaginal septum, a cause of dystocia, 46
VULVA
—hidradenoma of, 229
—local hydrocortisone therapy of vaginal and vulval pruritus, 169

WOUNDS
—studies in healing of large right ventriculotomies, 72
